

# Preprofessional Program in Allied Health Sciences

## **Program Type**

Preprofessional Program

The requirements for admission to the schools and colleges of optometry, physical therapy, nursing, medical technology, etc. vary. However, in all schools, emphasis is placed on biology, chemistry, and physics. Some schools require additional courses, such as psychology, social sciences, literature, speech, nutrition, and physiology. The student should check with schools of his or her choice for information on specific requirements. For further information on a career in other health sciences, and for assistance in planning a course of study, contact the preprofessional advisor.

Hillsdale College has an agreement with Life University (Chiropractic), which allows students who have a 3.00 grade-point average and complete required prerequisite courses to have preference in admissions. Please contact the preprofessional advisor for more details.
