

Health and Wellness Services

Recognizing that education involves the whole person, Hillsdale College strives to be genuinely responsive not only to a student's academic concerns, but also to his personal, social, and vocational needs.

One of the primary advantages of a school such as Hillsdale is the possibility for close relationships between students and faculty. Faculty devote their time generously to personal conferences with students. Furthermore, there are opportunities for consultation and mentoring with the provost, the faculty advisor assigned to each newly enrolled student, the registrar, the dean of men and the dean of women (and their associate deans), and other staff. Referrals are made to appropriate clinical staff (psychological and/or medical) when needed.

COUNSELING SERVICES

There are several experienced and licensed mental health professionals who are able to assess, diagnose, and treat students who may have a substance abuse and/or mental health diagnosis. Common presenting problems may be (but are not limited to): anxiety disorders, mood disorders, stress management, grief and loss issues, family concerns, and/or other college adjustment issues. There is no charge for these sessions. Students can contact the College Health and Wellness Center to set up an appointment or contact one of the providers listed on the website.

MEDICAL SERVICES

The College provides medical care during the week from 8:00 a.m. to 4:00 p.m. at the Ambler House. A registered nurse is available for walk-in appointments during that time at no charge. A health care professional is also available for three hours each day and offers a full complement of medical care. There is a charge for doctor's appointments. It is recommended that students call ahead for an appointment with the doctor.
